

Capability Statement – Building & Construction

www.northgroup.com.au | feedback@northgroup.com.au

Who we are

NorthGroup Consulting is a specialist infrastructure surveying company. Our surveyors are experts in Land and Construction Surveying and 3D Laser Scanning.

NorthGroup Consulting have received high acclaim within the surveying industry for innovation and all-round excellence over the past 30+ years of operation and pride ourselves on creating exceptional value in delivering surveying & scanning solutions.

What we do

NorthGroup Consulting are Building and Construction Engineering Surveying Specialists, including all elements of construction. Our expertise allows for the appropriate solutions for our clients to be sourced and implemented, enabling the best design outcomes on infrastructure projects.

Our forte is in the planning, implementation and supervision of major civil projects with regard to surveying, mapping and data management. We are the leaders in Static and Mobile 3D Laser Scanning for route Infrastructure Surveys.

What we have done

NorthGroup Consulting are market leaders in utilising innovative solutions for route design mapping, including satellite and LIDAR technologies, Mobile Laser Scanning and conventional survey techniques.

We have extensive experience in Building and Construction Surveys from 10m to 3000km in length. For example we've recently completed Stage One of the Wiggins Island Coal Export Terminal (WICET) surveying the 5.5km Overland Conveyor and Rail Receivable facility.

We also have undertaken works in major road projects, tunnels, airport and port facilities, pipelines, high-rises, stadiums, large retail outlets and over water structures such as the 2.7km Houghton Highway Bridge. We work in major urban centers to remote areas, nationally and internationally.

How we do it

NorthGroup Consulting has a strong team culture with a flexible, reliable and responsive workforce backed by the latest technology. We can mobilize seamlessly onto projects and integrate within large project teams. Our team will value add to the project with our extensive experience, and, can do hands on innovative approach.

Safety, Environment & Quality

NorthGroup Consulting is internationally accredited with certifications in Quality ISO 9001: 2008, Health & Safety OHSAS 18001 and Environmental ISO 14001:2004.

Our Building & Construction Management Team

Julian Armstrong

Julian is a committed professional surveyor with over 20 years of experience. He leads the project team of dedicated surveyors in the Brisbane Office. His outstanding technical and managerial abilities are appreciated by all who are involved with him. Julian's background includes overseas placements working on large scale infrastructure projects in Hong Kong and the United Kingdom. He brings a wealth of knowledge to any project. Julian is a pre design route mapping specialist who is able to quickly and seamlessly design and coordinate large scale mapping projects for route selection optimisation. Julian's role not only focus's on job logistics and resource management, but also client satisfaction, adherence to specification, solution finding & quality control. Julian has the ability to find technical solutions to challenging surveying projects. He is dedicated to the safety and well being of his team and a commitment to cost effective solutions for his clients.

Ian McDonald

Ian McDonald is a dedicated professional surveyor with over 30 years experience in surveying and project management. Ian oversees the 3D Laser Scanning and Large Scale Infrastructure Projects at NorthGroup Consulting as well as working on Earthworks, Road & Construction Survey Projects as a Project Surveyor. Ian has a strong focus on delivering results expected by his clients. His ability to manage the most complex data sets to provide timely and accurate results is appreciated by all involved with him. Ian prides himself of offering solutions to the most challenging of projects and as such is also involved with Research & Development. Ian's services have been requested by clients who have taken him overseas to Asia and the Americas. Ian is known for his technical prowess for solving complex survey problems with innovative surveying solutions. NorthGroup Consulting clients appreciate his ability to seamlessly become part of their team and to value add to large scale infrastructure projects

A Sample of Some of Our Testimonial

RE: Testimonial - Norths Surveys

To whom it may concern,

We utilised North Surveys on the whole of the Houghton Highway Duplication Bridge. The reason we choose Norths was we knew we had the industry leaders for engineering and construction surveying with the appropriate personal for such a demanding project. Norths has the ability to have back up surveyors on standby when the project was busy and are flexible in their approach. The most up to date surveying equipment and techniques made for all survey specifications and tolerances being met. I am happy to use and recommend North Surveys for major infrastructure projects.

Regards

Clayton Smith
